COMPLETE SECURITY & WORKFORCE MANAGEMENT SOLUTIONS

BIOMETRIC ATTENDANCE | ACCESS CONTROL | ENTRANCE AUTOMATION
PARKING MANAGEMENT | SECURITY INSPECTION | ENTERPRISE SOFTWARE

 SALES: +91-95999 53923

 TECHNICAL SUPPORT: 011-4191-6615

FROM CEO'S DESK

“At TIMEWATCH, our mission is to simplify security through innovation powered by technology and built on trust.”

Since our founding in 2015, TIMEWATCH has evolved into a leading manufacturer in biometric identity, access automation, and AI-driven security systems.

Our solutions integrate hardware, software, cloud, and mobile applications into a unified ecosystem.

Mr. Virendra Kumar
Founder & CEO, TIMEWATCH

ABOUT TIMEWATCH

TIMEWATCH IS A TECHNOLOGY DRIVEN SECURITY AND AUTOMATION COMPANY SPECIALIZING IN BIOMETRIC IDENTITY, ACCESS CONTROL, WORKFORCE MANAGEMENT, AND AI-POWERED AUTOMATION SYSTEMS. OUR PRODUCTS OPERATE IN AIRPORTS, GOVERNMENT FACILITIES, MANUFACTURING UNITS, SCHOOLS, HOSPITALS, METROS, IT PARKS, AND RETAIL ENVIRONMENTS.

WE ARE KNOWN FOR ENGINEERING EXCELLENCE, SCALABLE SOFTWARE, CUSTOMER-FIRST SERVICE, AND HIGHLY RELIABLE HARDWARE.

MISSION, VISION & VALUES

MISSION

TO SIMPLIFY SECURITY AND WORKFORCE AUTOMATION USING RELIABLE, INTELLIGENT TECHNOLOGIES.

VISION

TO BECOME A GLOBAL LEADER IN BIOMETRIC IDENTITY AND ACCESS AUTOMATION.

VALUES

- INNOVATION
- PRECISION
- INTEGRITY
- EXCELLENCE
- RELIABILITY
- CUSTOMER FOCUS

CORE VALUES

- ✓ **INNOVATION: AI, ML, IOT-DRIVEN SOLUTIONS.**
- ✓ **QUALITY: INTERNATIONAL-STANDARD PRODUCTS WITH STRICT QC.**
- ✓ **RELIABILITY: 99.9% UPTIME WITH ROBUST HARDWARE AND SYSTEMS.**
- ✓ **CUSTOMER FIRST: EXPERT CONSULTATION, SMOOTH IMPLEMENTATION & STRONG SUPPORT.**
- ✓ **INTEGRITY: TRANSPARENT, ETHICAL, LONG-TERM PARTNERSHIPS.**

WHY CHOOSE TIMEWATCH?

- 1 100+ PRODUCTS ACROSS 7 VERTICALS
- 2 AI-DRIVEN BIOMETRIC & FACE RECOGNITION
- 3 NATIONWIDE INSTALLATION & SERVICE SUPPORT
- 4 CLOUD DASHBOARDS & INTEGRATIONS
- 5 IN-HOUSE R&D & ENGINEERING
- 6 24×7 REMOTE ASSISTANCE
- 7 TRUSTED BY CORPORATES, PSUs & GLOBAL ENTERPRISES

OUR CAPABILITIES

RESEARCH & DEVELOPMENT

AI SYSTEMS, BIOMETRIC
ENGINEERING, EMBEDDED
CONTROLLERS, PCB DESIGN.

MANUFACTURING EXCELLENCE

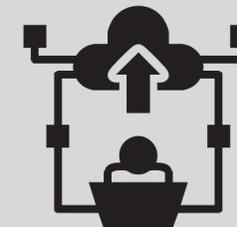

PRECISION ASSEMBLY,
RIGOROUS QC, INDUSTRIAL
GRADE DURABILITY.

SOFTWARE & CLOUD ENGINEERING

WEB DASHBOARDS, ANALYTICS, APIS,
MOBILE APPLICATIONS.

SERVICE & DEPLOYMENT

ON-SITE INSTALLATION, AMC,
PREVENTIVE MAINTENANCE, TRAINING.

PRODUCT ECOSYSTEM

TIMEWATCH ENABLES COMPLETE PHYSICAL SECURITY AND AUTOMATION:

TIME ATTENDANCE & ACCESS CONTROL

EM LOCKS & ACCESSORIES

TIME ATTENDANCE & ACCESS CONTROL

OVERVIEW- Smart, accurate, and scalable attendance and access control solutions designed for modern enterprises and secured workplaces.

DETAILS

CATEGORIES TYPE:

- Fingerprint Series
- TrueFace Series
- Industrial Series
- Face & Palm Series
- Iris & Face Series
- Card Reader
- Door Controller
- EM Lock & Accessories

BENEFITS:

- Eliminates buddy punching
- Improves discipline & transparency
- Real-time HR visibility

KEY FEATURES: Multi-biometric authentication, fast verification speed, cloud and mobile connectivity.

Advanced Functions: Auto attendance policies, OT rules, late/early rules, rostering, leave mapping, HRMS integration.

Fingerprirnt Series

OVERVIEW- Reliable fingerprint-based biometric devices for precise attendance and access control.

DETAILS

DEVICE TYPES:

Fingerprint

Card

Password

Multi-modal Devices

BENEFITS:

Provides cost-effective biometric security with proven reliability and ease of use.

KEY FEATURES: High-accuracy fingerprint sensor, large user capacity, multiple communication options.

Advanced Functions: Auto attendance calculation, shift rules, report generation, access control integration.

TrueFace Series

OVERVIEW- AI-powered facial recognition devices for fast, contactless, and hygienic attendance and access control.

DETAILS

DEVICE TYPES:

Face Recognition

Fingerprint

Card/QR Readers

Password

Multi-modal Devices

BENEFITS:

- Ensures touchless operation
- Faster authentication
- Improved hygiene,
- Modern workplace convenience

KEY FEATURES: AI face recognition, anti-spoofing protection, high-speed processing, cloud-ready design.

Advanced Functions: Mask detection, liveness detection, mobile app logs, real-time cloud synchronization.

Industrial Series

OVERVIEW- Rugged and high-performance biometric devices designed for demanding industrial environments.

DETAILS

VERIFICATION & FEATURES

- Face, Card, PIN & QR Verification
- TCP/IP, Wi-Fi, USB & Wiegand Connectivity
- Live Face Detection
- Face Mask Detection

7 inch
Touch Screen

<0.2 sec
Verification Speed

WDR

BENEFITS:

Improves workforce discipline, prevents misuse, and ensures consistent performance.

KEY FEATURES: Industrial-grade build, accurate biometric recognition, high storage capacity.

Advanced Functions: Advanced anti-spoofing, centralized access control, real-time monitoring.

Face , Palm & PIN Series

OVERVIEW- Dual-biometric devices combining face and palm recognition for enhanced security.

DETAILS

DEVICE TYPES:

-  Face Recognition
-  Palm Recognition
-  Fingerprint
-  Card
-  Password
-  Multi-modal Devices

BENEFITS:

Improves security accuracy while maintaining hygiene and user convenience.

KEY FEATURES: Face and palm authentication, fast response time.

Advanced Functions: AI liveness detection, cloud-based monitoring, mobile access, system integration.

Iris & Face Series

OVERVIEW- High-security biometric devices designed for maximum identity accuracy.

VERIFICATION & FEATURES

Iris Recognition

Face Recognition

Wi-Fi

4G

Bluetooth

Selfie-Type User Interface

Auto-tilt with 1.45-1.85m height coverage

Fake Detection

<0.5 sec Verification Speed

DETAILS

BENEFITS:

Delivers unmatched accuracy and prevents identity fraud in sensitive environments.

KEY FEATURES: Dual biometric verification using iris and face recognition.

Advanced Functions: Advanced anti-spoofing, centralized access control, real-time monitoring.

Card Reader

OVERVIEW- RFID/MIFARE based access solutions for fast and convenient entry control.

DETAILS

DEVICE TYPES:

Fingerprint

Card

Password

BENEFITS:

Enables quick access, easy user management, and low maintenance operation.

KEY FEATURES: Fast RFID reading, compact design, durable construction.

Advanced Functions: Integration with controllers, EM locks, and centralized access software.

Door Controller

OVERVIEW- Centralized controllers for managing single or multiple access doors.

DEVICE TYPES:

Fingerprint

Card

Password

Bluetooth

DETAILS

BENEFITS:

Improves access security, reduces manual monitoring, and supports scalable installations.

KEY FEATURES: Multi-door support, secure access logic, stable performance.

Advanced Functions: Time-based access rules, fire alarm integration, remote door monitoring.

UL LISTED EM LOCK & ACCESSORIES

ACCESSORIES

3x3 Metal Push Button

1x3 Metal Push Button

3x3 No Touch Push Button

U, L & Z Bracket

Emergency Door Release Button

Wooden Drop Bolt Lock

MIFARE & Proximity Card

Mini UPS

ENTRANCE SECURITY SOLUTIONS

OVERVIEW- Turnstiles, flap barriers, swing gates, and full-height gates.

DETAILS

DEVICE TYPES:

- Tripod Turnstiles
- Flap barriers
- Swing gates
- P-Type Swing Gate
- Full-height Turnstile gates

BENEFITS:

- Biometric integration (Face, Finger, Card, PIN & QR)
- Fast throughput
- Stainless steel build
- Multi-sensor safety

BUILT FOR: Airports, metros, corporate lobbies, stadiums.

Advanced Functions: Anti-tailgating security, fire alarm integration, emergency free passage, and remote access control.

PARKING & TRAFFIC SOLUTIONS

OVERVIEW- Intelligent vehicle access and traffic management solutions for secure and efficient movement control.

DEVICE TYPES:

- Boom Barriers
- Rising Bollards
- Spike Barriers
- ANPR Systems
- UHF Reader

DETAILS

BENEFITS:

- Prevents unauthorized vehicle entry
- Reduces congestion
- Enhances perimeter security

KEY FEATURES: Automated vehicle access with fast, reliable, weather-resistant operation.

Advanced Functions: AI vehicle recognition, anti-ram protection, remote system monitoring.

SECURITY INSPECTION SOLUTIONS

OVERVIEW- Advanced inspection systems designed to detect concealed threats and enhance security screening accuracy.

DEVICE TYPES:

- Door Frame Metal Detector
- Handheld Metal Detector
- X-Ray Baggage Scanner
- Narcotics & Chemical Detector
- Under Vehicle Surveillance System

DETAILS

BENEFITS:

Improves public safety, enables fast and non-intrusive screening, reduces security risks, and supports efficient threat detection.

KEY FEATURES: High-precision systems for detecting metal, baggage threats, and contraband.

Advanced Functions: AI threat analysis, adjustable sensitivity, data logging, network connectivity.

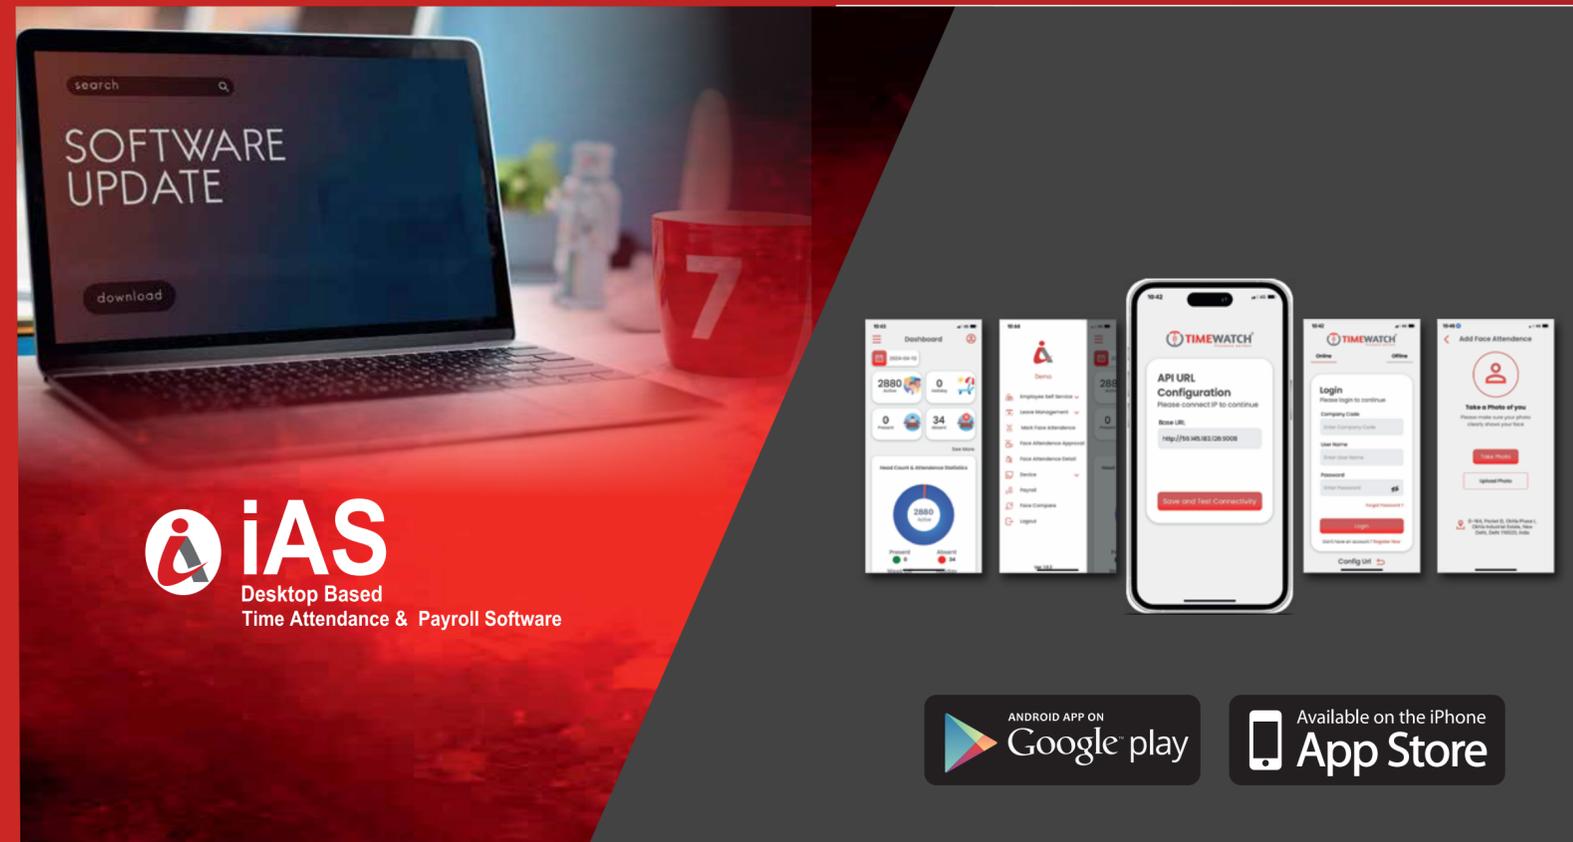

SOFTWARE & APPLICATIONS

OVERVIEW- Smart, accurate and scalable attendance devices designed for enterprises.

DETAILS

SOFTWARE TYPES:

- BioManager
- Payroll Management
- Mobile Application
- Visitor Management System
- Parking Management System
- Canteen Management System
- GYM Management System

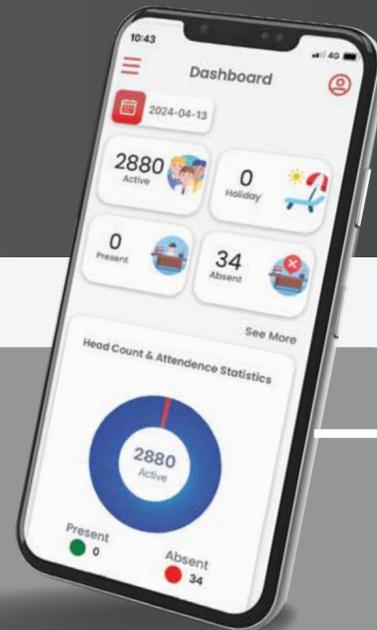

BENEFITS:

- Real-time data visibility
- Reduces manual errors
- Easy compliance management
- Scalable for multiple locations

KEY FEATURES: Centralized platform for attendance, payroll, visitors, and workforce management.

Advanced Functions: Cloud synchronization, mobile access, API integration, real-time analytics.

BIOMANAGER ATTENDANCE SOFTWARE

Web Dashboard & Cloud Access

Real-Time Sync Across Platforms

ATTENDANCE & WORKFORCE TRACKING

Employee Enrollment from Mobile App

Face Verification & Photo Attendance

Real-Time GPS Location Capture

MOBILE WORKFORCE MANAGEMENT

Attendance from Mobile

Photo, GPS, Geo-Fencing & Route Tracking

Leave & Out-Duty Requests

HR, LEAVE & REPORTS

Multi-Level Leave Approval

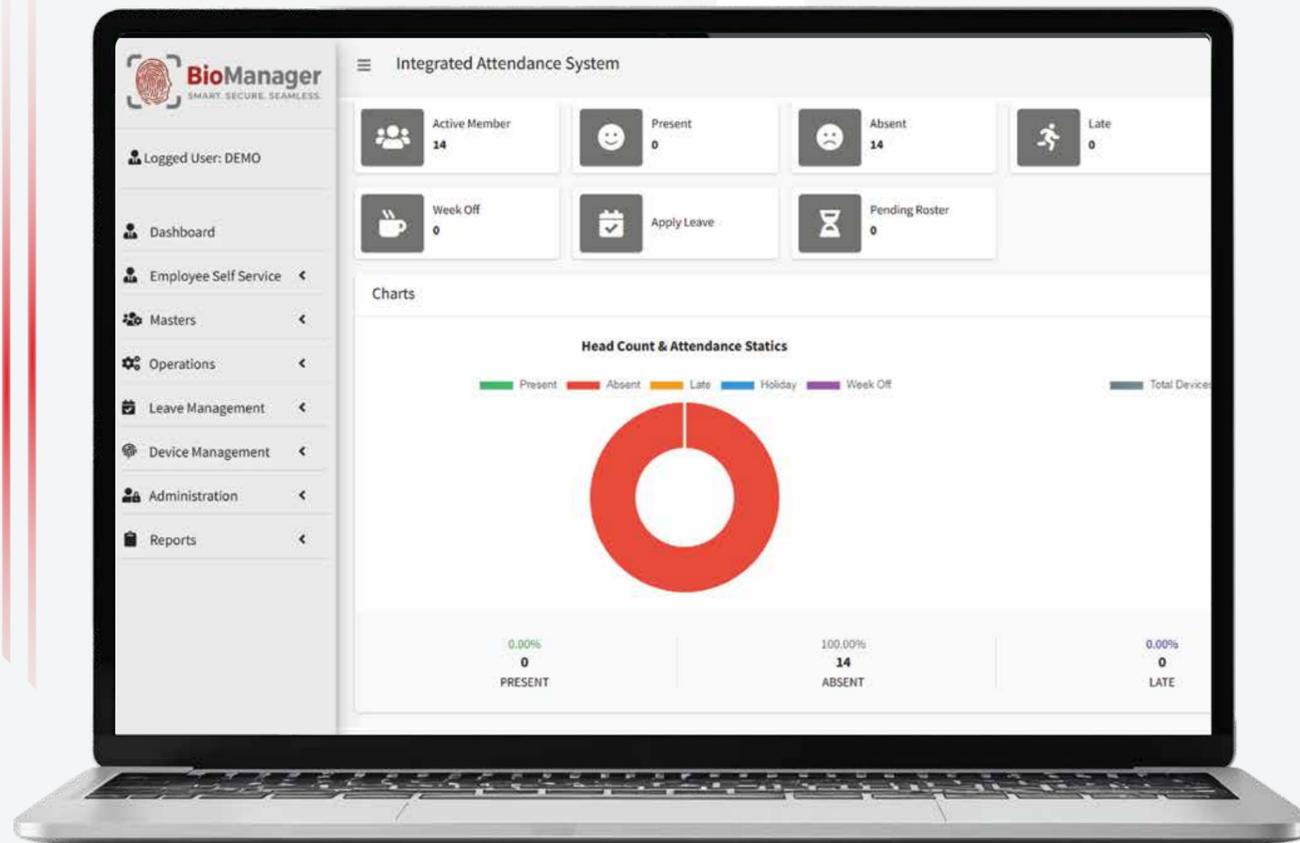

Email & App Notifications

Daily Headcount & MIS Reports

PAYROLL MANAGEMENT

Seamlessly manage payroll across multi countries with full multi-currency support

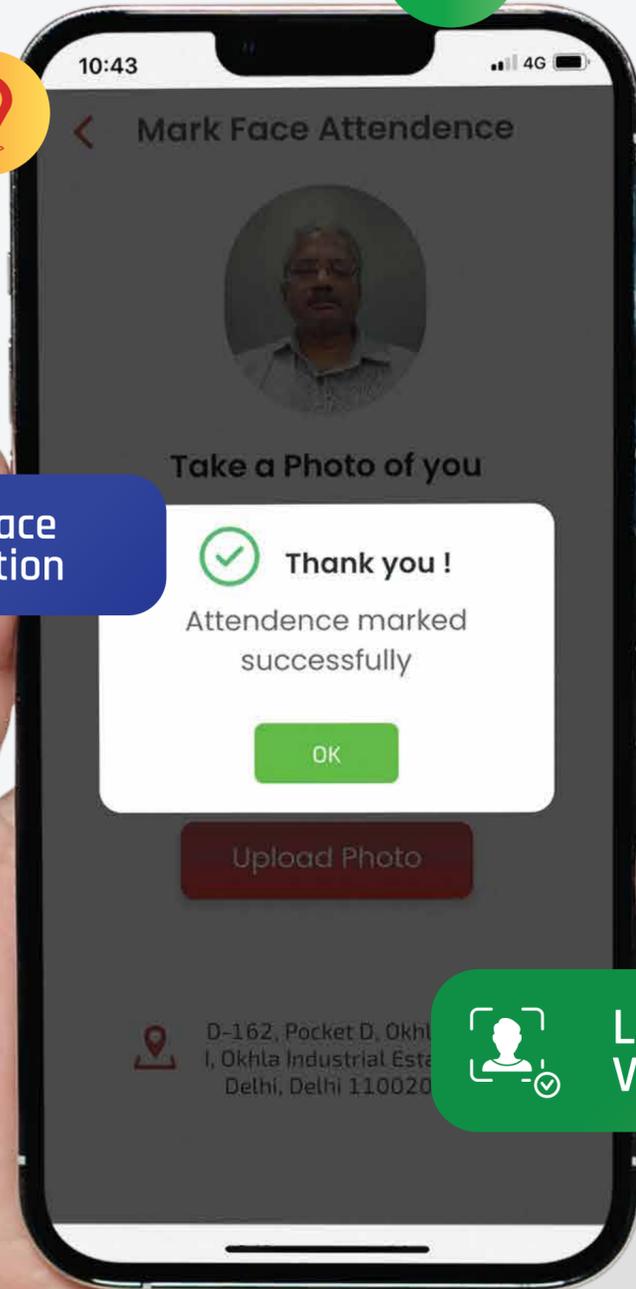

MOBILE APPLICATION

Instant Punch

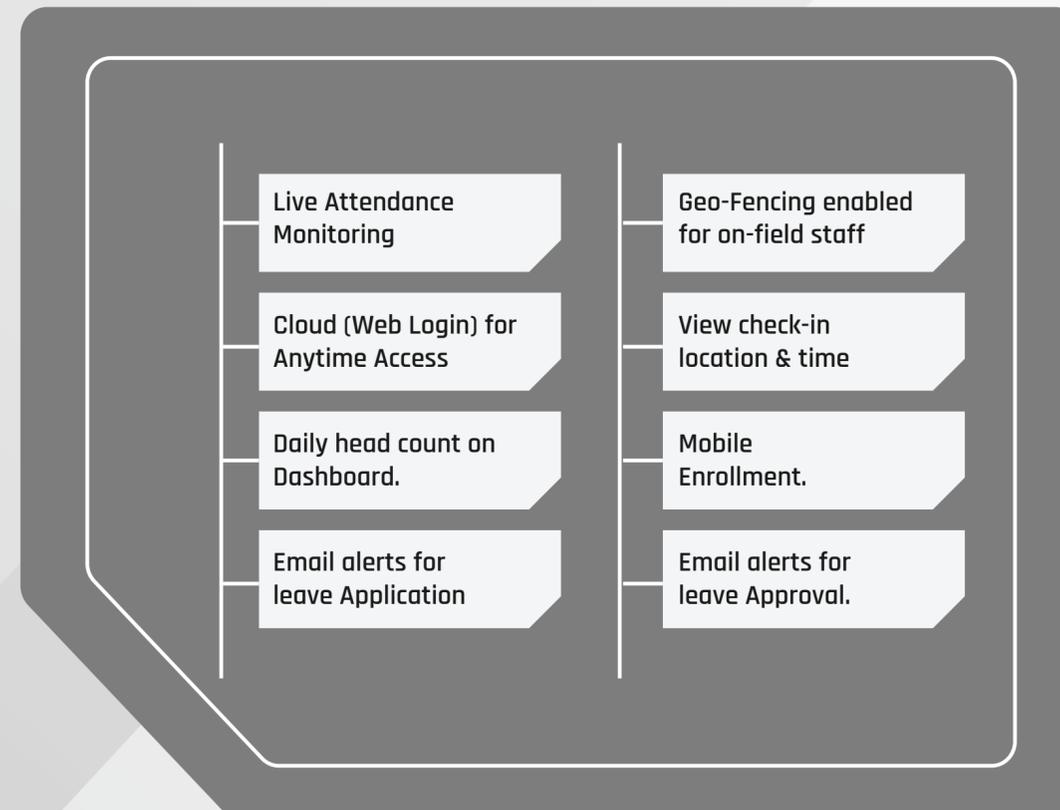

Live Location

Live Face Detection

Live Face Verification

“**SCAN HERE TO DOWNLOAD MOBILE APP**”

VISITOR MANAGEMENT

Secure & Smart Visitor Check-In

Pre-Appointments &
Host Notifications

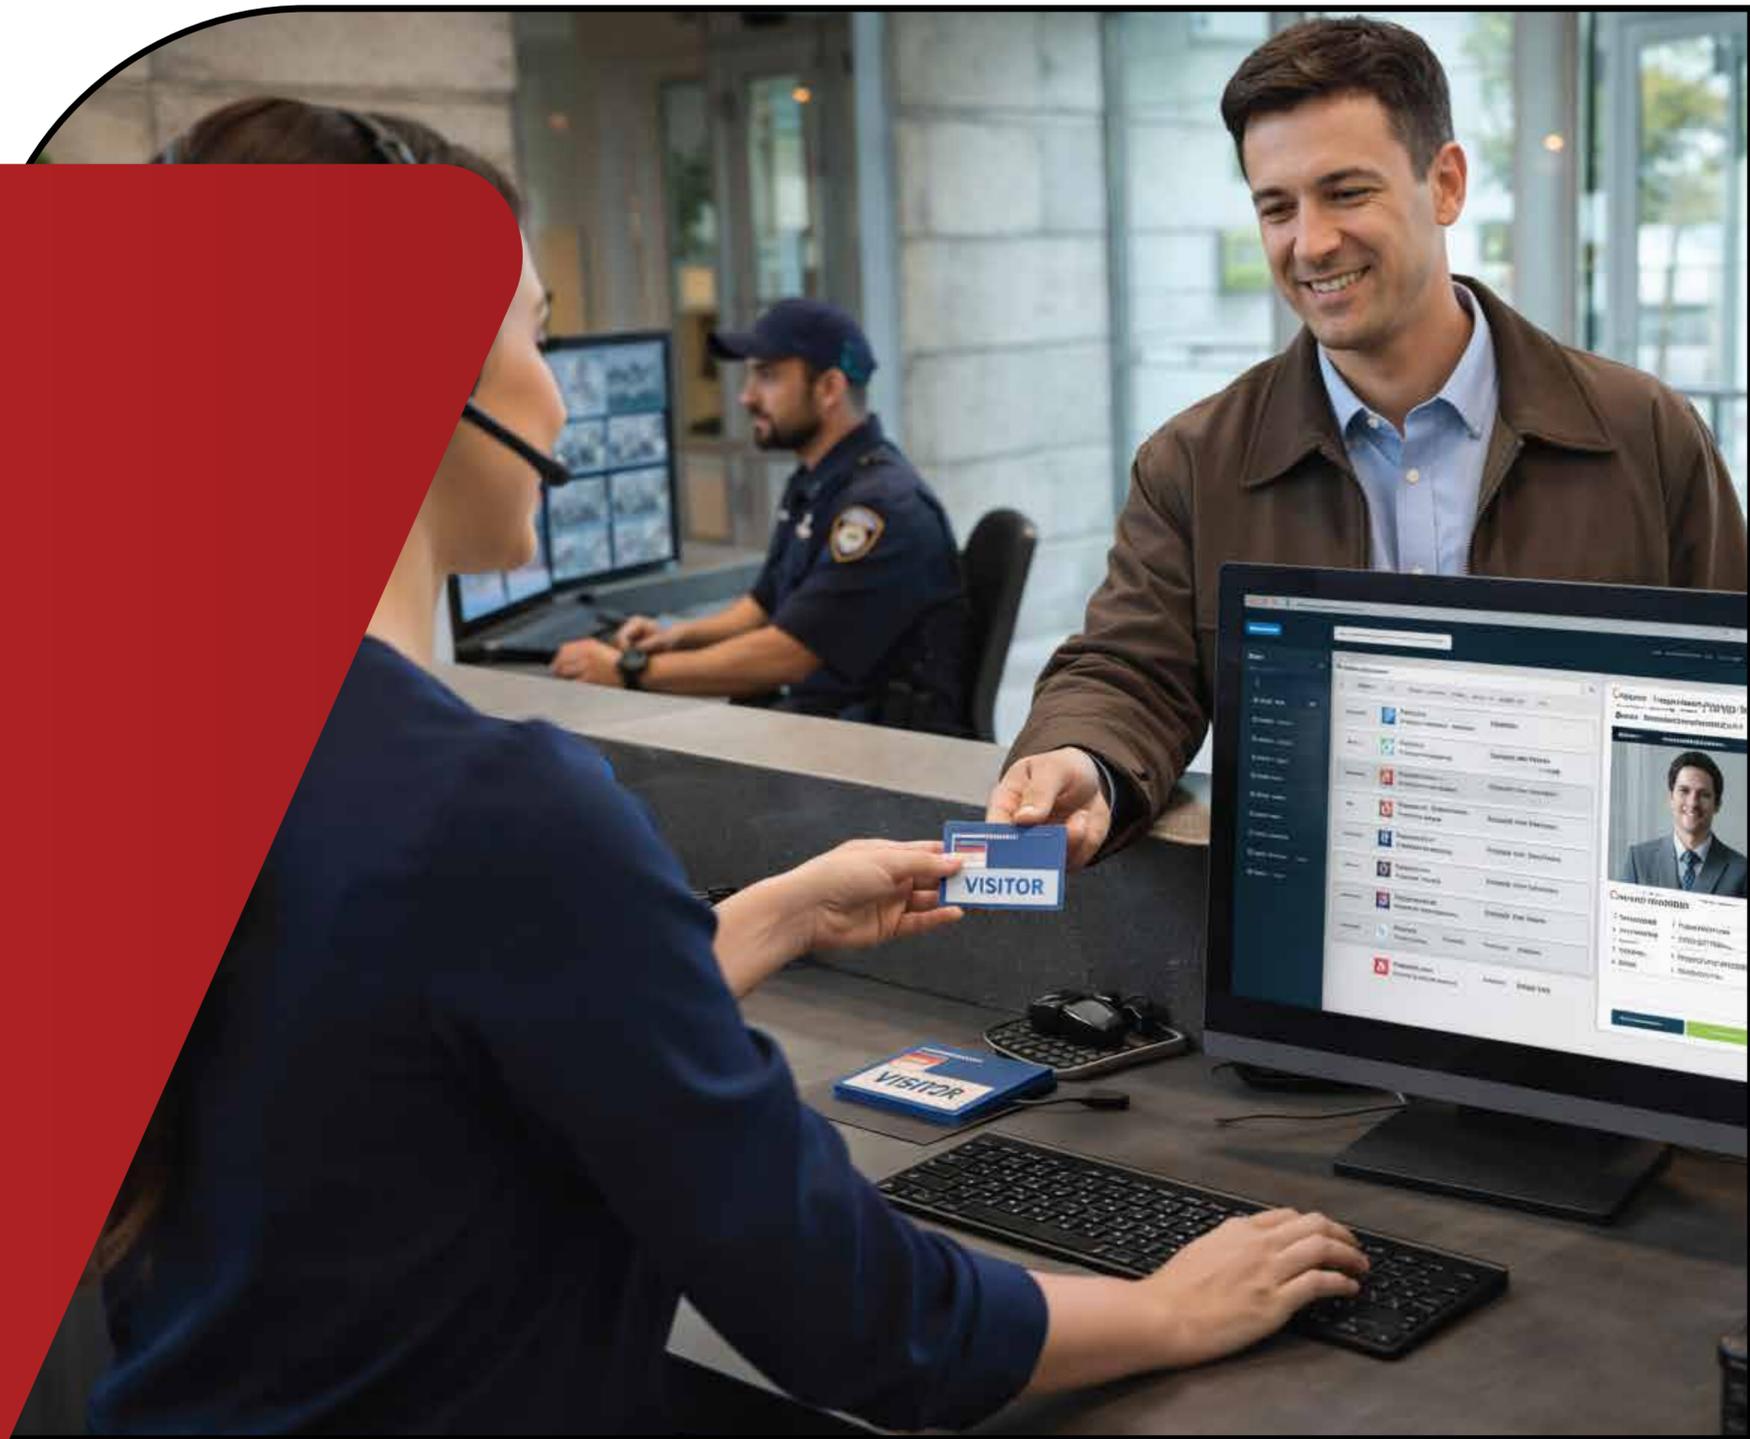

ID & Badge
Management

Real-Time Visitor
Tracking

Enhanced Security &
Compliance

PARKING MANAGEMENT SYSTEM

ANPR-based parking system that allows entry only for authorized vehicles.

RFID-based parking management ideal for restricted areas with authorized vehicle access only.

Automatic boom barrier with RFID and ANPR allows access only to authorized vehicles.

CANTEEN MANAGEMENT SYSTEM

Streamline food distribution
with smart automation

BIOMETRIC & CARD
BASED ACCESS

MEAL & ITEM WISE
CONTROL

EXPORT DATA TO PAYROLL
AND BILLING SOFTWARE

INTEGRATION WITH
PRINTER

GYM MANAGEMENT

User Friendly software
to manage large no. of
Members

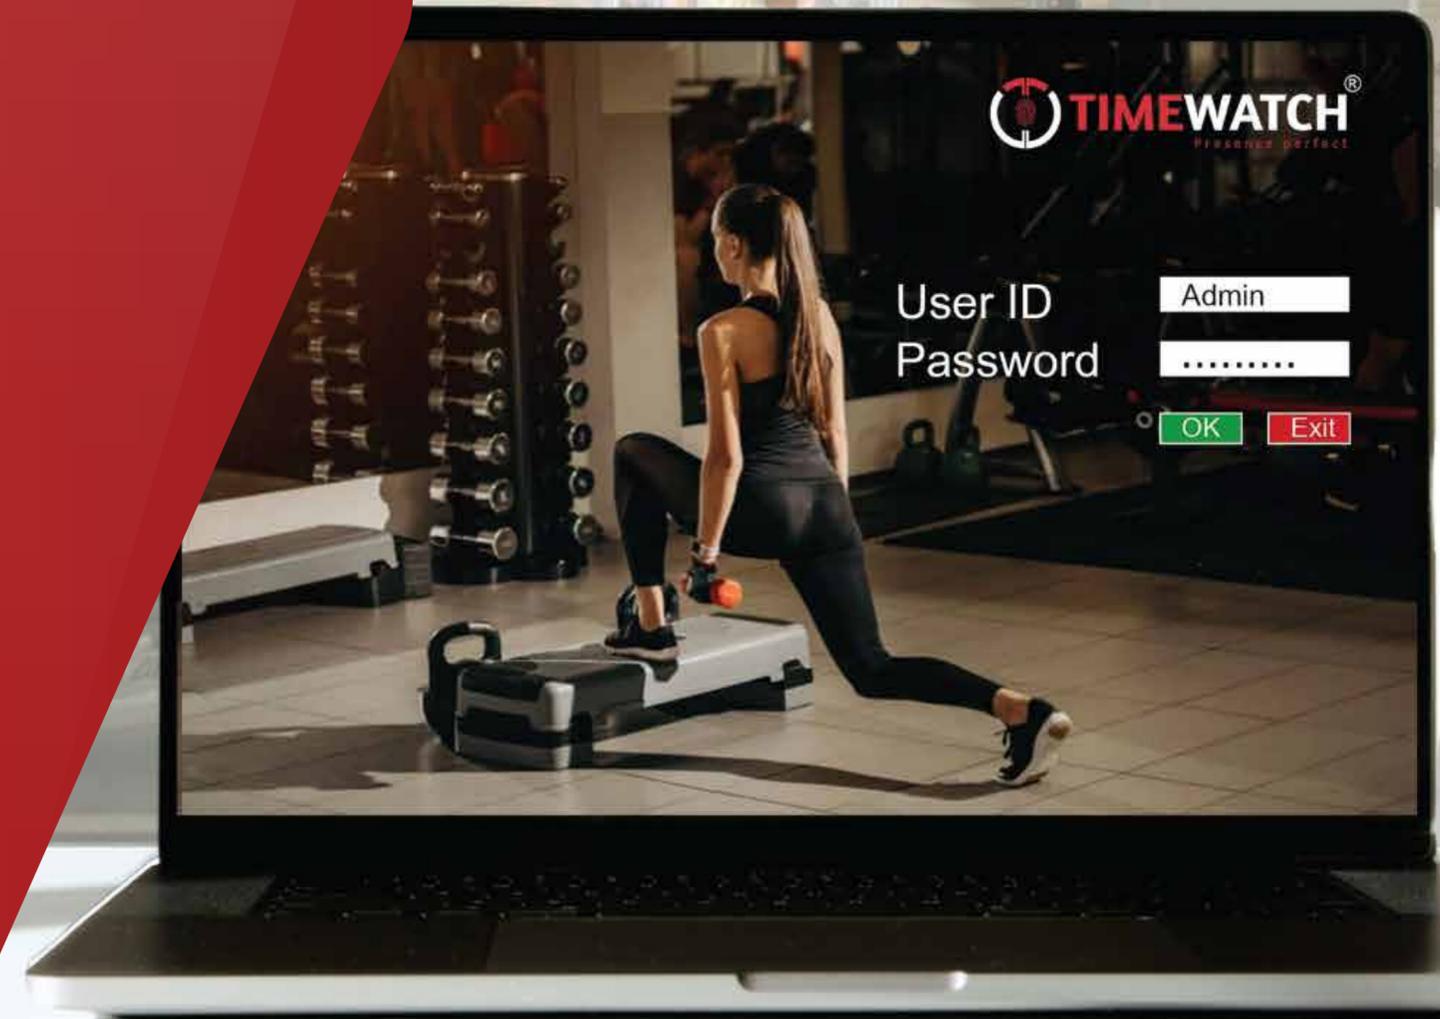

Automatic mail alert
for members
regarding payment

Track member
workout Timing
(in & out)

Comprehensive software
From member Registration
to settlements

Validity set option
along with reports on
collections

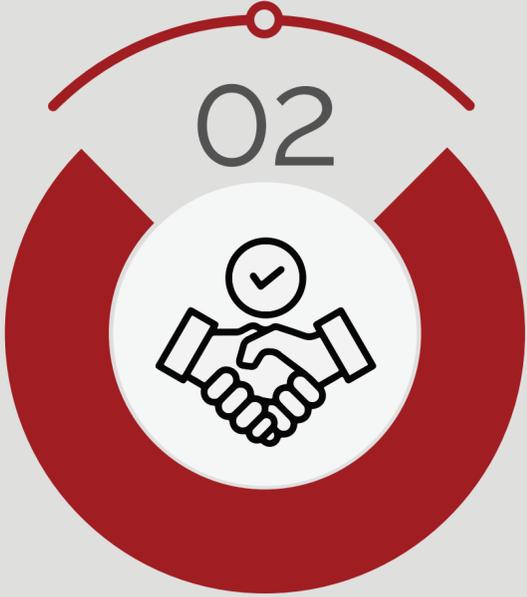

Other functions include
billing, Scheduling,
Training & Tracking

ACHIEVEMENTS

10,000+
INSTALLATIONS

TRUSTED BY
1500+ ENTERPRISES

PREFERRED VENDOR
FOR AIRPORTS & PSUS

DEPLOYED IN
10+ COUNTRIES

INDUSTRIES SERVED

Government • Airports • Corporates • Health
care • Education • Retail • Manufacturing •
Smart Cities
